- Emphasis on equity
- Parents and teachers as partners in the child's learning journey

Hello,  
I am Dizzy!

# Language and Literacy Development

## Four-blocks approach

Our language and literacy development resources help children develop communication skills and give them ample opportunities to nurture real-life competencies. We follow the four-blocks approach for a holistic approach.

### Oral language development

- Picture conversations
- Storytelling
- Sharing experiences
- Drama and roleplay

### Word recognition

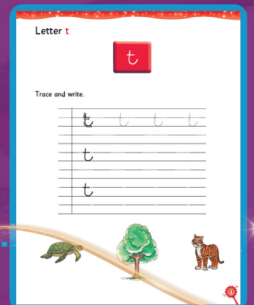

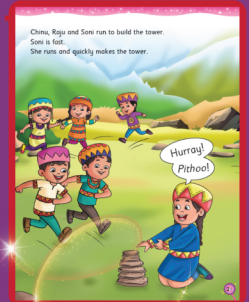

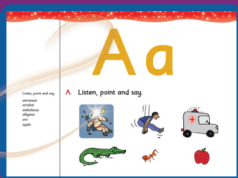

- Phonological awareness activities
- Letter-recognition
- Sound-symbol association
- Skill-focused writing
- Letter and word reading

### Reading practice

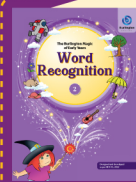

- Read aloud
- Shared reading
- Guided reading
- Independent reading

### Writing practice

- Modelled writing
- Shared writing
- Independent writing
- Guided writing

**Oral Language Development Books** introduce young learners to the English language and help them build their vocabulary through engaging activities, stories, songs and games.

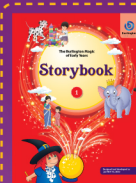

**Word Recognition Books** develop reading skills in young learners through letter-sound correspondence, phonological awareness and visual recognition.

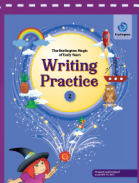

**Oral Language Development Home Play Books** offer each learner an opportunity to continue their learning at home in a playful manner.

**Rhymes Books** offer an excellent opportunity for blending music with language development, phonological awareness and kinaesthetic learning.

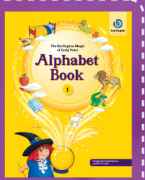

**Storybooks** integrate Indian stories, fostering language skills, imagination and creativity in young learners.

**Writing Practice Books** provide practice in writing both capital and small letters, followed by words and short sentences.

**Alphabet Book** helps young learners become familiar with the letters of the English alphabet by focusing on letter-case differentiation, letter-object relationships and letter formation.

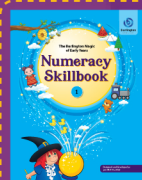

# Cognitive Development Resources for Early Years

## Cognitive Development - Numeracy

By linking mathematics to real-life situations, we aim to transform learners into effective problem-solvers. The Numeracy Skillbooks, aligned with the four-block approach to mathematics instruction outlined in the NCF-FS 2022 framework, foster holistic development for all learners.

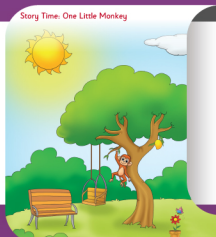

### Numeracy Resources

**Numeracy Skillbooks** aim to foster an early love for numbers and mathematical concepts in young learners through stories and game-based activities.

**Numeracy Home Play Books** offer each learner an opportunity to 'play' with their learning with the family members.

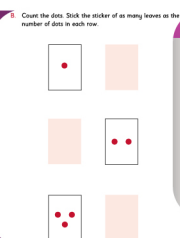

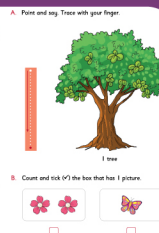

### Oral math talk

Poems, oral calculations, concept building and relatable experiences for children

### Skills teaching

Integration of all strands of proficiency

### Skills practice

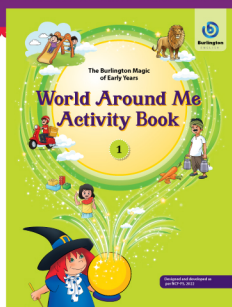

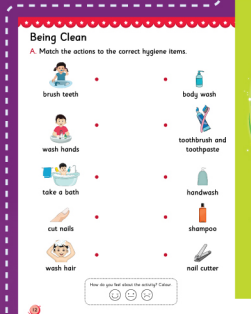

Procedural, conceptual and reason-based problem-solving

### Math games

Reinforcement of learning and critical thinking through games

## Cognitive Development – World Around Me

Children make sense of the world around them through observation and logical thinking. Our resources curate an educational environment that helps young learners observe objects around them and understand their relationships.

Our **World Around Me Activity Books** further the curiosity of young learners through activities based on exploration, observation and experiential learning.

## Aesthetic and Cultural Development

We believe that art and craft immersion provides another medium for young learners to express their ideas, emotions, and feelings. Burlington English aims to instil curiosity by encouraging students to explore materials, mediums and tools.

Our **Art and Craft Books** foster creativity and develop fine motor skills in learners. The young learners explore their imagination and develop sensory awareness through drawing, colouring, painting, pasting, clay moulding and origami activities.

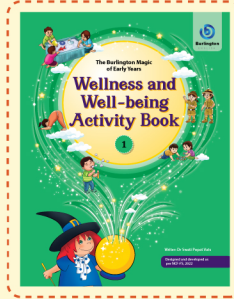

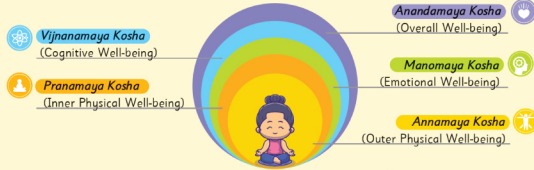

# Physical, Socio-emotional and Ethical Development

The **Panchakosha** framework emphasises the importance of the overall wellness of young learners in the developmental years by ensuring cognitive, inner-physical, emotional and physical well-being.

Our **Wellness and Well-being Activity Books** support children in:

- ◆ Making healthy daily choices
- ◆ Having positive social interactions
- ◆ Staying healthy
- ◆ Fostering emotional intelligence
- ◆ Nurturing qualities that help them become socially conscious

## The Burlington English Spell

- ◆ Integration of **Indian stories and art forms** fostering cultural awareness
- ◆ **Rich illustrations** and age-appropriate visual styles to engage and captivate young learners
- ◆ **Experiential learning** to promote deeper understanding and retention
- ◆ Amazing **digital resources** to enrich the teaching-learning experience

- ◆ **Child-friendly designs** and layouts to make learning seamless
- ◆ Resources based on **extensive brain-development research**
- ◆ Content to promote **healthy lifestyle choices** in the early years
